ENGINEERING SPECIFICATION: ZURN Z6912-GEN AquaSense Hydroelectric Powered Faucet- The Z6912-GEN sensor faucet is a sensor faucet with an in-line hydro power generator that creates electrical energy and stores it in a rechargeable cell. The hydro generator provides a self-sustaining system for approximately 10 years. The faucet incorporates an infrared convergence-type proximity sensor into the chrome plated cast brass spout. The Z6912-GEN is furnished complete with sensor module, spout module, in-line filter, a 1.5 GPM vandal resistant aerator, single supply hose and an inlet for a 1/2"[13] connection. The Z6912-GEN can be used for new construction or retrofit.
